

Your best partner for the digital intelligence

CLIC N'CLASS: key functions

Allow any broadband internet professional or private users to record, to classify, to index and to share any kind of information and document from his PC-office files (any format) or any scanned paper-work and documents.

A few minutes later (after the user sent his documents from his computer), these are automatically reachable on the web with a fully seeking function about any words of the documents. Some fields could be embedded to each document in order to enhance the seeking power of this product.

From everywhere in the world, an authorized user can read your documents, even modify the fields' values, download, cancel or add ... (according to user profile).

The user will pay only a monthly subscribing fee

Our price quotation principle covers the used or required memory space, the numbers of login and passwords.

CLIC N'CLASS allows everyone to use the high power and simplicity of Internet for classify, share and archive automatically his documents.

Everything becomes possible with Clic N'Class

CLIC N'CLASS: main performances

- **Security:** The solution guarantees a high security level and a permanent back up of your critical information. Thanks to the solution, operating users are able to quickly find any required information, including any paper documents, in a few seconds.
- **Quality insurance:** The solution guarantees a full traceability of critical information.
- **Productivity:** The solution enables to cancel any task without benefit: filing all paper documents, photocopy, paper's duplication, non-updated information, and ensures to reach a good "no paper" level.
- **Finance :** The solution will help companies to cut down all the direct or indirect (never) calculated costs that are linked to waste time, lost information, to wrong or delayed answers to clients...
- **No extra equipment, no long technical analyzes :** The solution is THE MOST EFFICIENT WAY to help your company to cope with daily problems when looking for lost information, important or urgent document that cannot be found, a wrong classified file ...and to save quickly money without required long specifications analyzes, technical knowledge, or set-up procedures understanding.
- **No risk:** If the concept of **CLIC N'CLASS** is not fitting to his needs, the subscriber can cancel his contract after six months operating. We will give him back all his documents under PDF format, on a CD-ROM or DVD-ROM with the same embedded seeking engine he uses.
- **Our competence and services:** Our experts will bring the user recommendation and coaching sessions in order to optimize his subscription. In case the subscriber wants to invest in a complete independent system, we could also bring him some help to conceive, to built and organize all processes involving our solution.

CLIC N'CLASS: about security

Data transfer is encrypted. Documents arrive in your dedicated space in our server localised at our provider's cold site. This site is secured with several firewall and antivirus (as "PANDA" real-time updated). We have also the opportunity to settle VPN connexion (fully secured tunnel) between us and a specific client. Our servers are backed up every night. Our security is 99,999% upper than most of traditional companies' intranet.

A confidentiality contract will be automatically settled between **CLIC N'CLASS** and subscribers.
